CLINICAL ASSISTANT PROFESSOR OF MOHS SURGERY POSITION

A full-time/part-time position in Mohs surgery at the rank of Clinical Assistant Professor is available in the Division of Dermatology, The University of Texas Health Science Center at San Antonio (UTHSCSA). UTHSCSA, the largest medical institute in South Texas, serves San Antonio and the 50,000 square-mile area of South Texas with a population of more than 4.2 million. The applicant should have a M.D. or D.O., be board certified in Dermatology, and be fellowship trained in Mohs surgery. The applicant should be motivated, organized and able to fulfill the surgical support needed for the division and our GME Dermatology residency program. The Mohs position will allow complete care of skin cancers particularly of the head and neck for non-melanoma (Squamous cell carcinoma/Basal cell carcinoma) and melanoma skin cancers. Clinical Dermatology, Laser and Cosmetic experience is preferred.

The Mohs surgical suite is fully equipped with an ancillary support team and established referral base with the UT Health system. It is located in the Mays Cancer Center now affiliated with MD Anderson in the UT Health medical center complex.

The city of San Antonio, the seventh-most populated in the U.S., has a vibrant art community that reflects the rich history and culture of the area with affordable housing, excellent schools, and a low crime rate. This unique city offers some of the best cultural institutions, events, restaurants, and friendly people in South Texas.
