DENT ECHO

BI-MONTHLY SESSIONS 12 PM – 1 PM ZOOM

An interactive peer-to-peer oral health learning community.

WHAT IS DENT ECHO?

UT Health San Antonio DENT (Dental Education Network for Texas) ECHO uses the ECHO (Extension for Community Healthcare Outcomes) model to support and educate primary oral health care providers in the delivery of quality and effective dental care for patients across the state of Texas by facilitating an engaging dialogue between subject matter experts and Texas dental care providers.

WHY IS DENT ECHO IMPORTANT?

Project ECHO is a lifelong learning and guided practice model that revolutionizes medical education and exponentially increases workforce capacity to provide best-practice specialty care and reduce health disparities. DENT ECHO uses a hub-and-spoke telementoring approach to allow providers to deliver high-quality care to patients in their own communities.

Why Join?

TeleECHO

DENT ECHO uses videoconferencing through ongoing mentorship, peer-to-peer learning, staff cases and collaborative problem solving to improve outcomes for patients.

Network

Network, and provide an open forum for exchanging knowledge and sharing experiences. Build capacity, support and expand access to care for rural and underserved populations.

Free CDE/ CME Credit

Free CDE/CME credit for each telementoring session attended.
