88th Texas Legislative Funding Priorities (2024–2025)
President William L. Henrich, M.D., M.A.C.P.

- Secure $15 million from the Legislature for the New School of Public Health, in collaboration with the University of Texas San Antonio, to provide start-up funding to enhance public health educational programs and operations;

- Enhance formula funding for health-related institutions’ growth and adjust these formulas for inflation;

- Provide sustainable incentive funding for mission specific formulas;

- Sustain non-formula funding for existing special/exceptional items; and

- If provided, pursue Capital Construction Assistance Program authorization to expand brain and cancer research facilities and address much needed deferred maintenance on campus.
